

Calipso

CHAIRS

2000

Antonio Citterio

Description

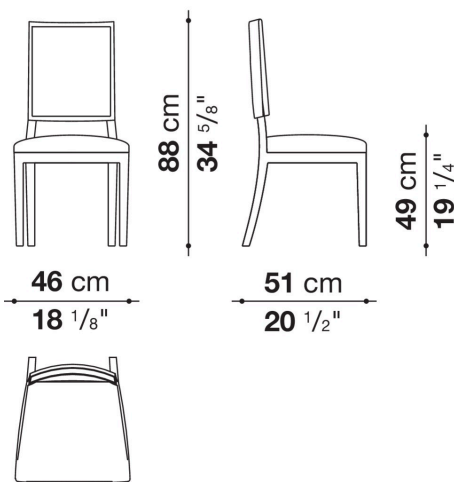

Generously shaped and padded, Calipso is a chair with a traditional soul. The wood frame comes in a variety of finishes, and the seat can be upholstered in either leather or fabric. Particularly striking is the lighter looking version with a woven straw backrest that lets the light shine through. Its refined style makes Calipso perfect for a variety of settings and contexts, such as the dining and sleeping areas.
