

Sileo

BEDS

2023

Antonio Citterio

Description

The Sileo bed completes the Maxalto range of beds. The shapes are slightly rounded without being cumbersome; the frame can accommodate different mesh systems and either a semi-recessed or flush mattress. Minimal in style, the headboard is very high, designed to define the space but also to accommodate the occupants' heads and shoulders while reading, even with high, flush-fitting mattresses. Characterized by an aluminium profile, it is available in different sizes with fabric or leather covers.

Technical information

Headboard

panel in wood particles, shaped polyurethane, polyester fibre cover

Bed sides

multi-layered wood panel, shaped polyurethane, polyester fibre cover

Corner and crosspiece

steel

Slatted base support

galvanized steel

Central foot

aluminium

Lower edge
