Antonio Citterio

Description

A series of cabinets and display elements destined to safeguard and exhibit the most precious objects with great elegance. Ideal for both homes and commercial spaces, to be placed also in the centre of the room, these pieces allow their contents to be viewed, extracted and repositioned easily with perfect order. Cabinets are available in one size and in three different versions with extractable trays and drawers. The entire range pairs tops in transparent extra clear glass with painted metal structures in sophisticated colours. Shelves, drawers and extractable trays – the latter featuring a leather lining – are available in different wood options.
